MOSIER PARKWAY, BROOKVILLE, OHIO 45309

TWO-HUNDRED TON CRANE BEING INSTALLED

CASE STUDY

Several buildings were built for this client to accommodate his growing equipment rigging and storage company. This is a repeat client with Bon Builders.

PROJECT SPECIFICATIONS

- Total of four buildings plus one addition ranging from 10,000 to 20,000 square feet
- Working with Bon Builders for 12 years a total of 6 buildings for two businesses
- All Pre-engineered Steel Buildings

UNIQUE CHALLENGES

One of the most unique buildings was designed around a 200-ton crane the client purchased. He needed a building to house and support both the weight of the crane and the equipment so that the crane could be fully operational to its maximum capacity.

CLIENT SATISFACTION

"Bon (Builders) is a company I can sit down and explain my need and trust that it will be met with a high degree of quality...a company I can trust"
