THREE TEXTURES ON FAÇADE

Simple additions make the front interesting

SANCTUARY CEILING

Everything above twelve feet was eventually painted black— an inexpensive solution to draw attention to platform area

SPACIOUS LOBBY

CASE STUDY

Existing church bought land “out of town” and built a small shelter for summer gatherings. As congregation continued to grow, they turned to Bon Builders to design and build a simple and low cost, yet attractive worship area adjacent to shelter which congregation turned into education space.

PROJECT SPECIFICATIONS

- 5,400 total square feet
- Pre-engineered steel building with masonry façade
- Tied into existing structure
- Developed master plan for future expansion
- Complete project – 7 months

UNIQUE CHALLENGES

To meet budget constraints, Bon Builders offered cost-effective solutions to minimize material, yet provide an attractive facility. To maintain costs, ceiling and HVAC ducts were painted black. This saved funds being spent on ceiling and was an effective and inexpensive solution to draw attention to the platform.

CLIENT SATISFACTION

"I really enjoyed working with Bon. They were able to help get us into our new sanctuary and worked hard at maintaining costs for us."

*Darryl Pigg, Pastor
Victory Assembly of Gods Church*
