#### PORCH AND SHOWROOM EXPANSION

#### EXPANSION IN PROCESS

Adding new to existing

## CASE STUDY

Vandalia Rental needed to expand the retail showroom and asked Bon Builders to design and construct the expansion. Bon Builders also designed and built the first phase of Vandalia Rental.

### PROJECT SPECIFICATIONS

- 18,000 total square feet
- Designed and built to match the existing structure
- Showroom and porch extension with night-time security gates
- Complete project – 8 months

### UNIQUE CHALLENGES

Vandalia Rental's clients are many contractors. We invited their entire contractor client base to bid on their particular area of construction expertise. Our sub-contractors team was then chosen, based on those bids. No business was lost because of our management through this process.

### CLIENT SATISFACTION

"Bon Builders did a great job for us the first time around. That's why we asked them back, and we weren't disappointed"
