CASE STUDY

Educational Nature Center positioned in a protected natural environment for general public use

PROJECT SPECIFICATIONS

- 28,000 total square feet
- Construct a new facility adhering to LEED and Green standards, to incorporate an existing nature center and develop a new maintenance storage structure
- Complete project – 19 months

UNIQUE CHALLENGES

The Center was to remain open during construction to accommodate educational services to local students and the community. Bon Builders minimized obstruction and limited environmental disturbance in order for the center to maintain daily operational schedules.

CLIENT SATISFACTION

“Bon Builders conducted regular meetings with us to manage the project in an efficient and cost-effective manner. They listened, gave sound professional advice and worked out problems with an optimistic ‘can do’ attitude.”

Charity Krueger
Executive Director
